1. Introduction

Functional areas throughout the organization are responsible for protecting consumer rights and supporting our clients. Fraudulent Investigations are done through a series of comprehensive analysis managed by the Compliance and Risk Management Team. Thorough reviews are conducted by means of reports, call interactions/transactions, and monitoring software applications.

2. Scope

The Customer Security Team will review inquiries originated through different channels and create cases. The inclusive review function will include assessment of case and ensure it follows client and internal policies, processes, and procedures, to further identify possible suspicious activity. The Customer Security Team will notify Management with of any violations and/or security breach and will follow the notification matrix.
