1. Purpose

To establish a clear, consistent process for investigating incidents of theft involving:

- Employee personal belongings
- Company equipment without data (e.g., chairs, keyboards, monitors, tools)
- Company-issued data-capable devices (e.g., laptops, phones, tablets, USBs)

This SOP ensures proper handling, timely escalation, and protection of company and customer data.

2. Scope

This SOP applies to:

- All employees, contractors, and visitors within company premises.
- All theft incidents reported within the workplace or involving company-issued equipment/device.

3. Definitions

Term	Definition
Personal Belongings	Employee-owned items such as bags, wallets, phones, clothing.
Company Equipment without Data	Items with no data storage capability. Examples: headsets, monitors, keyboards, mice, chairs, workstations, badge holders, etc.
Company Equipment with Data	Company assets that can store, access, transmit, or process company or customer data. Examples: laptops, tablets, mobile phones, external drives

4. Responsibilities

Role	Responsibility
Employee	• Report loss/theft immediately and provide accurate details
Line Manager	• Submit incident report • Assess theft suspicion • Coordinate with HR/IT
Human Resources (HR)	• Approve CCTV requests • Communicate findings • Coordinate interviews and actions
Facilities Management / Security	• Review CCTV • Provide summarized findings • Enforce access controls
IT Field Support (ITFS)	• Support inventory verification for non-data devices • Assist in documentation • Execute device lock/wipe
IT Security	• Assess cyber/data risks
Compliance & Risk Management	• Evaluate regulatory impact • Determine client/legal notifications • Co-approve CCTV for data-device cases

5. Reporting Incidents Involving Personal Belongings (Employee-Owned Items)

5.1. Initial Reporting

- 5.1.1. Employees must report any loss, theft, or suspected mishandling of personal belongings (e.g., bags, wallets, phones, accessories) to their Line Manager.
- 5.1.2. The Line Manager must ensure a formal Incident Report is submitted to HR.

5.2. Required Documentation

Incident Report must include:

- 5.2.1. Date and time of the incident
- 5.2.2. Location (e.g., production floor, cafeteria, lounge)
- 5.2.3. Detailed description of the event
- 5.2.4. Identifying features of the missing item
- 5.2.5. Witnesses or any supporting information

5.3. CCTV Review

- 5.3.1. HR must approve all CCTV review requests involving personal items.
- 5.3.2. Once approved, Facilities Management / Security will review the CCTV footage.
- 5.3.3. Facilities Management / Security must prepare a written summary of findings together with a screenshot of the footage (if applicable) and submit it to:
 - 5.3.3.1 HR
 - 5.3.3.2 Compliance & Risk Management (if applicable)
- 5.3.4. HR will communicate summarized findings only. Footage will NOT be shown to employees.

6. Reporting Incidents Involving Company Equipment Without Data (Non-Data Capable Devices)

6.1. Initial Reporting

- 6.1.1. Employees must report missing non-data company equipment to their Line Manager.
- 6.1.2. If the device is part of IT inventory (e.g., headsets, mice), the Line Manager must coordinate with IT.
- 6.1.3. If theft is suspected, the Line Manager must escalate to HR for CCTV request approval.

6.2. CCTV Review (If Theft Suspected)

- 6.2.1. HR approves the CCTV request and forwards it to Facilities Management / Security.
- 6.2.2. Facilities Management / Security reviews the footage and submits findings to HR.

- 6.2.3. If footage suggests internal theft, HR and Facilities Management / Security jointly determine next steps:
 - 6.2.3.1 Employee interviews
 - 6.2.3.2 Administrative actions
 - 6.2.3.3 Disciplinary measures
 - 6.2.3.4 Escalation to Compliance & Risk Management if patterns or risks emerge

7. Reporting Incidents Involving Company Equipment With Data (Data Capable Devices)

These incidents are high severity due to data exposure risk (PII, PHI, company data).

7.1. Immediate Reporting

- 7.1.1. Employees must immediately notify:
 - 7.1.1.1 Line Manager
 - 7.1.1.2 ITFS
 - 7.1.1.3 IT Security
 - 7.1.1.4 Compliance & Risk Management
- 7.1.2. A Security Incident Report must be completed within the same working day.

7.2. Required Documentation

Incident documentation must include:

- 7.2.1. Device type and unique identifier (asset tag, serial number)
- 7.2.2. Last known location and time
- 7.2.3. Whether the device contains company/client data
- 7.2.4. Whether remote lock or wipe can be performed (ITFS / IT Security)
- 7.2.5. Witness statements or evidence
- 7.2.6. Police report (if applicable)

7.3. CCTV Review

- 7.3.1. HR and Compliance & Risk Management must jointly authorize all CCTV reviews involving data-capable devices.
- 7.3.2. Facilities Management / Security will conduct the CCTV review and provide:
 - 7.3.2.1 Surveillance findings
 - 7.3.2.2 Timeline reconstruction
 - 7.3.2.3 Identified security gaps or access issues
- 7.3.3. Compliance & Risk Management will assess:
 - 7.3.3.1 Potential data exposure
 - 7.3.3.2 Whether the incident must be escalated to:
 - 7.3.3.3 Legal Client(s) Privacy Office Regulators (if applicable)

8. Access Control & CCTV Room Requirements

- 8.1. The CCTV Room is a restricted area.
- 8.2. No employee or manager may enter for self-viewing or ad hoc checking.
- 8.3. Only authorized Facilities Management / Security, and Compliance & Risk Management personnel may access CCTV recordings.
- 8.4. All CCTV access and review activities must be approved by HR and logged for audit readiness.

9. Communication of Findings

- 9.1. For all regions except Jamaica, CCTV footage is not shown directly to employees under any circumstance.
- 9.2. For Jamaica, CCTV footage is presented to the employee/accused as evidence during the disciplinary process, in accordance with local due process requirements.
- 9.3. HR is responsible for communicating summarized findings to:
 - 9.2.1 Reporting employees
 - 9.2.2 Involved parties
- 9.4. Compliance & Risk Management must be informed and included when:
 - 9.3.1 Data-capable devices are involved
 - 9.3.2 There are repeated theft patterns
 - 9.3.3 Security or operational concerns are identified
 - 9.3.4 External reporting might be required

10. Communication with Law Enforcement Agencies

In case a complaint is lodged with any Law Enforcement Agency by an employee or ex-employee against the company or another employee (e.g., theft or related allegations), the following actions will be taken:

- 10.1. If an individual reports a crime and requires a review of CCTV, he/she will be advised to submit an Incident Report.
- 10.2. HR and/or Compliance & Risk Management will investigate the matter and authorize the Facilities Management / Security to review the relevant footage, providing all necessary details.
- 10.3. Facilities Management / Security will review the footage and submit a report to HR and/or Compliance & Risk Management along with screenshots, if required.
- 10.4. Once suspicion is established or the incident is confirmed, HR and/or Compliance & Risk Management will instruct Facilities Management / Security to save and secure the relevant footage for record and future reference.
- 10.5. The requesting individual will be advised of the initial findings and to request from law enforcement representative to submit a formal request for ibex to review its CCTV and submit its findings.
- 10.6. After authorization, the official summary report with the pertinent screenshots shall be issued to the requesting law enforcement representative or employee to support their investigation.
- 10.7. The relevant footage shall be preserved in case a court order is issued to require the actual footage for litigation.
- 10.8. If there are no pertinent findings, an official summary report shall still be issued to the requesting individual to show proof that the incident was not captured/recorded in the specified time and place.
