## 1. Purpose

It is ibex's commitment to continue building a strong secured environment by abiding with the policies set by our clients.

To ensure IT Security and Data Privacy, it is critical that Employee Physical and Logical Access is managed properly.

## 2. Scope

This process outlines the steps and owners involved in deactivating and reactivating Employee Physical and Logical Access and is applicable to and for all IBEX employees.

## 3. Definition

### 1) Access Control Group (ACG)

- a) The Access Control Group refers to a collection of departments who are in charge of monitoring and toggling the physical and logical access of employees.
- b) Each of the ibex locations and regions will have their own Email Distribution List for this purpose.
- c) Composition:
  - i) Human Resources (HR)
  - ii) Facilities Administration (Faci)
  - iii) Information Technology (IT)
  - iv) Workforce Management (WFM)
  - v) Operations Management

### 2) Physical Access

- a) This refers to an individual's proximity access normally determined by the company issued Proximity Badge Access
- b) Proximity access is determined by one's position and program assignment

### 3) Logical Access

- a) This refers to an individual's access to company and client IT systems and tools

### 4) Time-off / Leave of Absence (LOA)

- a) Company Leaves
  - i) These are company-provided paid leaves;
  - ii) They may be used for vacation or medical reasons;
- b) Statutory Leaves
  - i) These are government-mandated leaves for specific purposes;
  - ii) These may differ per region based on local laws;
- c) Unpaid Leaves
  - i) Unpaid leaves are used if there are no available or applicable paid leaves for absences that are deemed valid / excused by Management;

### 5) No-call, No-show (NCNS)

- a) These are unauthorized absences without proper notice

### 6) Absent Without Leave (AWOL)

- a) An employee is considered AWOL after 3 consecutive NCNS

### 7) Return to Work Order (RTWO)

- a) Refers to a notice sent to an employee demanding him/her to report to work
- b) This is typical sent to employees who are on NCNS status for at least 3 days

#### **8) Preventive Suspension**

- a) This is a preventive measure imposed by the company wherein the employee is taken off-the-phones while they are being investigated for possible violations if the employee's continued physical presence at work may pose a risk to the company, its employees, clients or partners.

#### **9) Suspension**

- a) This refers to an actual suspension of work as a penalty or Corrective Action

#### **10) Temporary Retrenchment, Floating Status, Furlough**

- a) This happens when an employee is permanently or temporarily removed from his program/campaign assignment to be transferred to another role, program or LOB.
- b) Reasons may include
  - i) Removal due to Policy Violations
  - ii) Down-sizing
  - iii) Dissolution/closure/consolidation of client/program

#### **11) Termination**

- a) Company-initiated termination due to legitimate causes as indicated in the local Labor Laws.
- b) Employee-initiated termination / resignation refers to a voluntary termination of employment initiated by an employee through filing of resignation. Employees may be required to render the minimum Notice Period as indicated in the local Labor Laws.

### **4. Process**

- a. **Temporary Disabling:** The Physical and Logical Access of Employees who meet the following conditions shall be temporarily suspended
  - i. **Service Incentive Leave / Vacation Leave**
    - 1. The Agent/employee/Supervisor/Manager files for time-off / LOA through ibex.ONE.
    - 2. All SIL/Vacation Leave request must be filed at least a week prior to the dates being requested, unless due to valid and unavoidable reasons;
    - 3. The request shall go through necessary approvals before being applied;
    - 4. If approved:
      - a. Supervisor/Manager/ibex.Activate POC disables employee NT Login through Ibex.Activate
      - b. Ibex.Activate shall automatically notify Facilities or IT to disable the badge access of the employee;
    - 5. Upon return of the employee, or if the employee has confirmed return a day prior his/her shift, the immediate Supervisor or Manager files request to Return From Leave through ibex.ONE.
      - a. HR enables employee NT Login through Ibex.Activate
      - b. Ibex.Activate shall automatically notify Facilities or IT to

enable the badge access of the employee;

ii. Time-Off and Leave of Absence (LOA)

1. The Agent/employee/Supervisor/Manager/HR files for time-off / LOA through ibex.ONE.
2. All LOAs must be filed at least a week prior to the dates being requested, unless due to valid and unavoidable reasons;
3. The request shall go through necessary approvals before being applied;
4. Some requests may require the approval of HR depending on the specific time-off or LOA used;
5. If approved:
  - a. HR disables employee NT Login through Ibex.Activate
  - b. Ibex.Activate shall automatically notify Facilities or IT to disable the badge access of the employee;
6. Upon return of the employee, or if the employee has confirmed return a day prior his/her shift, the immediate Supervisor or Manager files request to Return From Leave through ibex.ONE.
  - a. HR enables employee NT Login through Ibex.Activate
  - b. Ibex.Activate shall automatically notify Facilities or IT to enable the badge access of the employee;
7. If the employee fails to return, the immediate superior then either files for an extension following the same LOA request flow or considers the employee NCNS.
8. Same-day requests (leave dates that are same as the day it was requested), especially those that falls on a weekend are highly discouraged. It is preferred that employee submit their requests on a weekday to ensure all relevant departments are present to process it. Supervisors and Managers are expected to negotiate accordingly and refusal or absence from the employee to follow through may be treated as NCNS / AWOL.

iii. No-Call, No-Show (NCNS)

1. The employee is absent and failed to notify through Absence Line or his/her supervisor.
2. Employee's immediate Superior or Manager notifies Access Control Group through email that the employee is NCNS:
  - a. Immediate Superior or Manager updates the employee's status in ibex.ONE with the appropriate tagging.
  - b. Immediate Superior or Manager disables employee NT Login through Ibex.Activate.
  - c. Faci or IT disables the badge access of the employee.
3. If the NCNS persist for more than 3 consecutive work days, the Superior or Manager notifies Access Control Group through email that the employee is now AWOL and trigger the RTWO Process.

4. If the employee returns, the immediate Superior or Manager sends an email confirmation using the same NCNS / AWOL Confirmation Notification email that the employee has returned and the Logical and Physical Access are then reactivated by the concerned department:
  - a. Immediate Superior and Manager files Return From Leave in ibex.ONE
  - b. Immediate Superior and Manager enables employee NT Login through Ibex.Activate
  - c. Faci or IT enables the badge access of the employee
  - d. Client ID Revocation POC reactivates client ID (if applicable)
5. If the employee fails to return, the immediate superior or manager sends an email confirmation using the same NCNS/AWOL Confirmation Notification email that the employee has not returned and endorses the employee for Termination.

iv. Preventive Suspension (PS)

1. Employees who are undergoing administrative investigation who are placed on Preventive Suspension while their case is being resolved.
2. HR or immediate supervisor/manager for Jamaica, issues a Notice of Preventive Suspension to an employee being investigated.
3. HR or immediate supervisor/manager for Jamaica, sends PS Confirmation Notification email to the Access Control Group:
  - a. HR updates status on ibex.One and temporarily disables employee NT Login through Ibex.Activate
  - b. Faci or IT disables the badge access of the employee
4. If the employee is not terminated and is allowed to return, HR sends an email confirmation using the same PS Confirmation Notification email that the employee is allowed to return and the Logical and Physical Access are then reactivated by the concerned department
  - a. HR files Return From Leave and enables employee NT Login through Ibex.Activate
  - b. Faci or IT enables the badge access of the employee
5. If it is decided that the employee is terminated, HR issues the Notice of Termination and initiates protocol for termination.

v. Suspension

1. Employee is placed on Suspension as penalty for a Policy Violation.
2. If the employee is already on PS, and the said PS period shall be converted to Actual Suspension, HR simply needs to follow closure for PS flow when the employee returns.
3. If the employee is not on PS and is required to be on actual

Suspension for a violation, HR issues a Notice of Decision / Corrective Action Form.

4. HR updates status on ibex.ONE
  5. HR sends Suspension Confirmation Notification email to Access Control Group:
    - a. HR temporarily disables employee NT Login through Ibex.Activate
    - b. Faci or IT disables the badge access of the employee
  6. Upon return of the employee, immediate superior or manager sends an email confirmation using the same Suspension Confirmation Notification email that the employee has returned and Logical and Physical Access are then reactivated by the concerned department:
    - a. Immediate Supervisor/Manager files Return from Leave through ibex.ONE
    - b. Immediate Supervisor/Manager enables employee NT Login through Ibex.Activate
    - c. Faci or IT enables the badge access of the employee
  7. If the employee fails to return, he/she is considered NCNS and follows the NCNS/AWOL process.
- vi. Temporary Retrenchment/Floating Status/Furlough
1. Once decided, HR issues Notice of Temporary Retrenchment/Furlough/Floating Status to the employee.
  2. HR updates status on ibex.ONE
  3. HR sends Floating Status Confirmation Notification email to the Access Control Group:
    - a. HR temporarily disables employee NT Login through Ibex.Activate
    - b. Faci or IT disables the badge access of the employee
  4. If employee is transferred to another Campaign, Department or Assignment, the Recruitment Team sends an ECF Request to the ECF/HRIS Team, requests for the appropriate accesses for the new assignment, and notifies the Access Control Group for the reactivation of Physical and Logical Access:
    - a. HRIS updates employee assignment through ibex.ONE
    - b. HR enables employee NT Login through Ibex.Activate
    - c. Faci or IT enables the badge access of the employee
- b. **Permanent Disabling:** The Physical and Logical Access of Employees who meet the following conditions shall be permanently disabled.
- i. Termination by Employer
    1. The company may decide to terminate an individual's employment due to legitimate causes indicated in the local labor laws.

2. HR issues the Termination Notice with respect to the Notice Period applicable Labor Laws.
3. HR notifies the employee's immediate superior and manager when all pertinent documents such as the termination letter are complete.
4. Employee's immediate supervisor / manager confirms
5. HR sends the Attrition Notification email to the Access Control Group.
  - a. HR terminates the employee profile in ibex.ONE
  - b. Faci / IT deactivates the employee's Badge Access
6. Employee processes his/her Exit Clearance.

ii. Resignation

1. Employees may terminate their employment but are required to render the mandatory notice period before the effective date of their resignation, thus immediate resignations highly discouraged unless due to emergency or unavoidable circumstances. (Philippines Labor Code, Article 300; The Labour Relations and Industrial Disputes Act (LRIDA) of Jamaica, Part III, Section 12; Labor Code of Nicaragua, Article 44; Honduran Labor Code, Article 116)
2. Employee files his/her resignation by submitting a resignation letter to his/her immediate Superior or Manager;
3. The employee's immediate Superior or Manager then discusses with the employee to finalize the request and the effective date taking into account the mandatory Notice Period.
4. An Acceptance Letter or acknowledgement is issued by HR to the employee:
  - a. Effective Date (After last day worked)
  - b. Notice Period (Submission Date to Last Day Worked)
  - c. Note: If the employee is not able to render the Notice Period without valid reasons, all applicable penalties indicated in the contract or stipulated by law will be in effect.
5. On or before the effective date, the immediate Superior or Manager sends the Attrition Notification email to the Access Control Group:
  - a. HR terminates the employee profile in ibex.ONE
  - b. Faci / IT deactivates the Badge Access
6. If there are any changes to the effective date, the employee must submit a revised Resignation Letter with the appropriate adjustments and the corresponding Acceptance Letter is issued, and the immediate Superior or Manager sends an updated Attrition Notification email to the Access Control Group.
7. Employee processes his/her Exit Clearance
8. Immediate Resignations and Resignations that falls on a weekend

are highly discouraged. It is preferred that employee submit their resignation on a weekday to ensure all relevant departments are present to process the request. Supervisors and Managers are expected to negotiate accordingly and refusal or absence from the employee to follow through may be treated as Job Abandonment / NCNS / AWOL.

**c. Disable/Enable Access Capability:**

Individuals who are assigned to terminate or suspend employee NT Login may request their access through eService

## **5. Enforcement**

- a) HR shall regularly extract a Report in ibex.ONE to randomly check on Employee Status to determine accuracy
- b) Payroll shall regularly send a list of employees tagged as Active but without any registered work
- c) HR shall extract from Power BI to check on Termination Delays by looking at the difference between the Effective Date of Termination and the date it was processed
- d) Any discrepancy shall be investigated
- e) Supervisors or POCs who fail to complete their respective part in the process shall be issued the corresponding Corrective Action
