1. Purpose

IBEX must protect operational, customer, proprietary or sensitive data on mobile devices including but not limited to laptops. from unauthorized access, modification, and any attempts to deny access to authorized users. This is a critical business requirement to protect the data while enabling the secure use of company resources on the go.

2. Scope

The scope of this policy extends to all corporate owned mobile devices including but not limited to smartphones, tablets and laptops where the employees have access to IBEX. data.

3. Roles and Responsibilities

Roles	Responsibilities
Employees	Assure compliance to the Policy requirements stated within this policy
IT Field Support	To ensure all mobile devices are managed in accordance to the policy
IT Procurement	to ensure they handover the new devices to ITFS for compliance readiness

4. Policy

Employees might be assigned company owned mobile devices based upon their job function and business need. However, processing, transmission and storage of IBEX and/or client data shall be restricted and only allowed after due approvals. Below restrictions shall be applied on such mobile devices.

- I. All mobile devices if process, store or transmit IBEX. data or are used to connect to IBEX. network shall be enrolled in a company approved Mobile Device Management solution.
- II. All users who required access to organization resources including but not limited to emails on mobile devices shall only be allowed access if enrolled in MDM
- III. Mobile device screen shall set to lock after 60 seconds of inactivity and must require password/pin to unlock.
- IV. In case of loss or theft of device, all corporate data on the device shall be remotely wiped.
- V. Organization shall also monitor location information on mobile devices via MDM where applicable.
- VI. Organization shall enforce encryption on company owned mobile devices via MDM.
- VII. All IBEX users shall be prohibited to remove MDM control from their mobile devices.
- VIII. Client specific MDM restrictions shall be applied as per contractual requirements.

4.1. Device Handling Procedures

4.1.1. Loss, Theft and compromise

If the device is lost or stolen, or if it is believed to have been compromised in some way, the incident must be reported immediately by contacting relevant HR, IT Field Support, ServiceDesk, or Incident Management who should verify the incident and take the following actions:

- a) Corporate information and data must be fully wiped out the device.
- b) Device is remotely disabled where technically feasible.

4.1.2. Service de-propositioning

If the user has left the company for any reason (e.g. terminated, resign, end of contract, etc.), following actions shall be taken by respective teams:

- a) User account must be disabled
- b) Backup user profile and email data
- c) Fully wipe the device(s)

4.2. Right to Monitor

Ibex has the right to monitor all data on corporate residing on the corporate mobile device.

5. Enforcement

Any employee found to have violated this policy may be subject to disciplinary action
